Editor’s column
1 DAWN: another brand new day
F C Albuquerque, J A Hirsch, D Fiorella

Editorial
3 Iterating the ASPECTS <6 threshold
J Mocco, M Chen

Ischemic stroke
5 Favorable revascularization therapy in patients with ASPECTS ≤ 5 on DWI in anterior circulation stroke
I A Mavroud, E Abergel, D Mantilla, X Ayrigues, T Sacagiu, O F Eker, G Gascou, C Dargazangi, C Riquelme, M Moya, E Bonafe, C Aquezian, V Costalat

10 A multicenter study of the safety and effectiveness of mechanical thrombectomy for patients with acute ischemic stroke not meeting top-tier evidence criteria

17 Intravenous thrombolysis before endovascular therapy for large vessel strokes can lead to significantly higher hospital costs without improving outcomes
A T Rai, SH Boo, C Baseman, A K Addock, A R Rakshishy, M M Miller, T D Roberts, J R Domico, J S Carpenter

22 Timing of vessel imaging for suspected large vessel occlusions does not affect groin puncture time in transfer patients with stroke
J W Lang, I Stein, N Wilson, J T Fif, S Tubrin, M S Dhamee

25 Elevated mean platelet volume is associated with poor outcome after mechanical thrombectomy
F Peng, W Zheng, F Li, J Wang, Z Liu, X Chen, L Xiao, W Sun, X Liu

29 Intracranial nitroglycerin as directed acute treatment in experimental ischemic stroke
M E Manioskas, J M Roberts, R Traue, A F Learoyd, A Gorman, J F Fraser, G J Bix

Hemorrhagic stroke
44 A survey of intracranial aneurysm treatment practices among United States physicians

50 Optimal first coil selection to avoid aneurysmal recanalization in endovascular intracranial aneurysmal coiling
H Neki, S Kohyama, T Otsuka, A Yonezawa, S Ishihara, T Yamane

55 Posterior circulation perforator aneurysms: a proposed management algorithm

60 Autologous adipose-derived mesenchymal stem cells improve healing of coiled experimental sacular aneurysms: an angiographic and histopathological study
A Reachaud, W Briitfet, D Dai, Y-H Ding, T Gundersen, D Schroeder, I Spelle, D F Kallmes, R Kaddur
