Choudhry FA, Grantham JT, Rai AT, *et al* Vascular geometry of the extracranial carotid arteries: an analysis of length, diameter, and tortuosity. *Journal of NeuroInterventional Surgery* 2016;8:536-540.

In table 1 of this proof there are some incorrect data entries. In the Vessel row, the Left and Right headings should both read (n=100). In the Tortuosity row, the data in the middle column should be 1.2 ( $\pm$  0.1). This means that the result in the p value column should read  $<0.0001$ .
