549 Time to re-assess the treatment of idiopathic intracranial hypertension
F C Albuquerque, B A Gross, M R Levitt

Commentary

551 It’s time to think about the head and heart!
P Bhogal, S K Gill, P A Brouwer, H I D Makalanda

Ischemic stroke

553 Early arrival at the emergency department is associated with better collaterals, smaller established infarcts and better clinical outcomes with endovascular stroke therapy: SWIFT study
D S Liebeskind, R Jahan, R G Nogueira, T G Jovin, H L Lutsep, J L Saver, for the SWIFT Investigators

559 CTA collateral score predicts infarct volume and clinical outcome after endovascular therapy for acute ischemic stroke: a retrospective chart review
L Eldovitch, N Goyal, S Manthol, D Heit, A S Arturk, M Whitehead, A F Choudhri

563 Mechanical thrombectomy for acute ischemic stroke with cerebral microbleeds

568 Groin complications in endovascular mechanical thrombectomy for acute ischemic stroke: a 10-year single center experience
V A Shah, C O Martin, A M Hawkins, W E Holloway, S Junna, N Akhtar

571 Feasibility of combined surgical and endovascular carotid access for interventional treatment of ischemic stroke
M Wiesmann, J Kalder, A Reich, M-A Brockmann, A S Arthur, M Whitehead, A F Choudhri

576 Reduced cerebrovascular reserve is associated with an increased risk of postoperative ischemic lesions during carotid artery stenting
M Koyanagi, K Yoshida, Y Karosaki, N Sadamaasa, O Narumi, T Sato, M Chin, A Handa, S Yamagata, S Miyamoto

Hemorrhagic stroke

581 Stent-assisted coil embolization of aneurysms with small parent vessels: safety and efficacy analysis
A L Kühn, S Y Hou, A S Puri, C F Silva, M J Gounis, A K Waikoo

586 Analysis of endovascular treatment of ruptured microaneurysms compared with ruptured larger aneurysms
E M Quinama, P Vega, E Morales, A Gil, H Cuellar, P Navia, A Saiz, A Meakin, M Cadenas, D Larosa, J C Gutierrez-Morales, A Lopez

591 Endovascular parent artery occlusion of proximal posterior cerebral artery aneurysms: a report of two cases
H Oshi, S Taneue, K Teramshi, H Hasegawa, S Nonaka, S Magami, M Yamamoto, H Arai

Clinical neurology

594 Venous sinus stenting for idiopathic intracranial hypertension is not associated with cortical venous occlusion
M R Levitt, F C Albuquerque, A F Ducruet, M Y S Kalani, C B Multikolland, C G McDougall

New devices

596 Preliminary experience with the liquid embolic material agent PHIL (Precipitating Hydrophobic Injectable Liquid) in treating cranial and spinal dural arteriovenous fistulas: technical note
J J Leyon, S Chavda, A Thomas, S Lamin
