Contents

Volume 9 Issue 2 | JNIS February 2017

Editor’s column
111 A broad spectrum
F C Albuquerque

Commentaries
113 Stent retrievers and acute stroke treatment: a rapid learning curve for experienced neurointerventional surgeons
W J Mack

115 Improving the likelihood of manuscript acceptance; a primer for trainees and young investigators
M Chen, F C Albuquerque, J Hirsch, R W Terr

Ischemic stroke
117 Time to redefine success? TICI 3 versus TICI 2b recanalization in middle cerebral artery occlusion treated with thrombectomy
J F Kleine, S Wunderlich, C Zimmer, J Kassmacher

122 Stroke vision, aphasia, neglect (VAN) assessment—a novel emerging large vessel occlusion screening tool: pilot study and comparison with current clinical severity indices
M S Telieh, A Ver Haeg, J Carter, M V Jayaraman, R A McGaught

127 Clinical diffusion mismatch better discriminates infarct growth than mean transit time–diffusion weighted imaging mismatch in patients with middle cerebral artery–M1 occlusion and limited infarct core

131 Intra-arterial versus intravenous abiciximab therapy for thromboembolic complications of neuroendovascular procedures: case review and meta-analysis

137 The modified ‘no touch’ technique in the antegrade endovascular approach for left common carotid artery ostial stenosis stenting
X Tang, W A Long, C Hu, F Tong, Q Wang, L Li

142 A survey of neurointerventionalists on thrombectomy practices for emergent large vessel occlusions

Hemorrhagic stroke
147 Treatment of complex anterior cerebral artery aneurysms with Pipeline flow diversion: mid-term results

152 Carotid cavernous fistula after Pipeline placement: a single-center experience and review of the literature
A K Roy, J A Grossberg, J W Osburn, S L Skulekale, B M Howard, P U Ahmad, F Tong, J E Dion, C M Cowley

159 Vein of Galen aneurysmal malformation—clinical and angiographic spectrum with management perspective: an institutional experience

165 Stent-assisted coiling versus coiling alone of poor-grade ruptured intracranial aneurysms: a multicenter study
B Zhao, X Tian, H Yang, K Zheng, Z Li, Y Wong, M Zhong, on behalf of AMPAS study group

169 Endovascular treatment of previously clipped aneurysms: continued evolution of hybrid neurosurgery
B A Gross, F C Albuquerque, K Moon, A F Ducruet, C G McDougall

Neuroimaging

173  A new index for the assessment of transverse sinus stenosis for diagnosing idiopathic intracranial hypertension
G B da Silveira Carvalho, S L de Andrade Matas, M H Idagawa, L A T Tibana, R S da Carvalho, M L S Silva, H Cogo-Moreira, A P Jaskowski, N Abdala

178  Impact of non-contrast enhanced volumetric MRI-based feeder localization in the treatment of spinal dural arteriovenous fistula
S K Kannath, B Thomas, P Sankara Sarma, J Enakshy Rajan

New devices

183  An in vitro evaluation of distal emboli following Lazarus Cover-assisted stent retriever thrombectomy
J-Y Chueh, A S Puri, M J Gounis

188  Use of Pipeline Flex is associated with reduced fluoroscopy time, procedure time, and technical failure compared with the first-generation Pipeline embolization device
E J Le, T Miller, Y Serulle, R Shivashankar, G Jindal, D Gandhi

Clinical neurology

192  Association of thrombelastographic parameters with post-stenting ischemic events
B Wang, X-Q Li, N Ma, D Ma, F Gao, X Sun, X Xu, L Liu, L Song, X-G Li, Z Zhao, X Zhao, Z-R Mao

Head and neck

196  Bilateral inferior petrosal sinus sampling: experience in 327 patients
A Despoyi, A Bailin, J A Hirsch, T G Walker, R Olu

Basic science

200  Statins are not associated with short-term improved aneurysm healing in a rabbit model of unruptured aneurysms
W Bringi, D Y Hong, D Dai, D J Schroeder, D F Killmes, R Kadivel

204  Development of an angiogenesis animal model featuring brain arteriovenous malformation histological characteristics
C Papagiannaki, F Clarençon, S Ponsonnard, C Couquet, F Masure-Eugène, D Bresson, C Yandon, C Meunayer

Socioeconomics

211  JNIS podcasts: the early part of our journey
J A Hirsch, K Fargen, A F Ducruet, R W Tarr

215  Expanding the social media presence of the Journal of Neurointerventional Surgery: editor’s report
K M Fargen, A F Ducruet, M Hyer, J A Hirsch, R W Tarr

Electronic pages

e5  Nitinol clip distal migration and resultant popliteotibial artery occlusion complicating access closure by the StarClose SE vascular closure system
D H Choi, M J Kim, C J Yoo, C W Park

e6  Late recurrence of a completely occluded large intracranial aneurysm treated with a Tubridge flow diverter
X Zhang, N Lv, C Wang, W Cao, J Liu, Q Huang

e7  Endovascular treatment of posterior condylar canal dural arteriovenous fistula
V Maus, M Söderman, G Rodesch, C Kablasch, A Mpertzas

e8  Intraventricular thrombolysis after endovascular treatment of a ruptured arteriovenous malformation
A Wang, A Ray, Y C Hu
