Volume 9 Issue 9 | JNIS September 2017

Editor’s column

813 Neurointervention: a call to science
M J Gounis

Commentary

815 Direct to embolectomy without IV tPA: the stage is set for a randomized controlled trial
R V Chandra, T M Leslie-Mazue, B P Mehta, J A Hirsch

Ischemic stroke

817 Acute Recanalization of Thrombo-Emolic Ischemic Stroke with pREst (ARTEmis) technique: the impact of occlusion time on clinical outcome of directly admitted and transferred patients
S Prothmann, B J Schweiger, A S Gersing, W Reith, T Niederstadt, A Felber, W Kurre

823 Impact of ASPECT scores and infarct distribution on outcomes among patients undergoing thrombectomy for acute ischemic stroke with the ADAPT technique
J P Hungerford, M Hyer, A S Turk, B D Turner, M I Chaudhry, K M Fargen, A M Spiotta

830 Thrombectomy in acute ischemic stroke: estimations of increasing demand
A Kuntzer Siderepis, T Anderson, N Ahmed, N Wahlgenre, M Kaiser

834 Predictors of false-positive stroke thrombectomy transfers
J Yi, D Zielinski, B Ouyang, J Conners, R Dafer, M Chen

837 The association between carotid intraplaque hemorrhage and outcomes of carotid stenting: a systematic review and meta-analysis
W Bronkip, V T Lehman, J Huston, I M Haarad, C Lanzino, H J Clift, D F Kalilmes

843 Interaction between the stent strut and thrombus characterized by contrast-enhanced high-resolution cone beam CT during deployment of the Solitaire stent retriever
T Tsumoto, Y Tsurusaki, S Tokunaga

New devices

849 Canadian Registry of LVIS Jr for Treatment of Intracranial Aneurysms (CaRLA)

854 Endovascular treatment of complex intracranial aneurysms using Acandis Acclino stents
F Brassel, D Grieb, D Meila, M Schlunz-Hendann, B Greling, K Melber

Head and neck

860 Endovascular treatment of head and neck arteriovenous malformations: long-term angiographic and quality of life results
D Meila, D Grieb, B Greling, K Melber, C Jacobs, M Hechtner, T Schmitt, M Schlunz-Hendann, H Lustermann, F Brassel

Clinical neurology

867 Dural sinus stenting for idiopathic intracranial hypertension: factors associated with hemodynamic failure and management with extended stenting
D A Kampe, J Seinfeld, X Huang, Q Mei, D E Case, C D Roark, P S Subramanian, K E Lint, V S Pelak, J L Bennett

Basic science

875 Verapamil eluting stents as a possible treatment for vasospasm after subarachnoid hemorrhage
P Bhandari, A Sarri, J H Wong, U Sundararaj, A P Mitha

880 Fistulous-type vein of Galen malformation: phantom model for endovascular training and research
D Meila, K Meller, D Grieb, C Jacobs, H Lustermann, F Brassel

Neuroimaging

887 Time-resolved 3D rotational angiography: display of detailed neurovascular anatomy in patients with intracranial vascular malformations
S Lescher, S Gehrisch, S Klein, J Berkelj

Disclaimer: While every effort is made by the publishers and/or the Society of NeuroInterventional Surgery to see that no inaccurate or misleading data, opinions, or statements appear in this journal, they wish to make it clear that the data and opinions appearing in the articles and advertisements hereon are the responsibility of the contributor or advertiser concerned. Accordingly, the publishers and the Society of NeuroInterventional Surgery, the editorial committee and their respective employees, officers and agents, accept no liability whatsoever for the consequences of any such inaccurate or misleading data, opinion, or statement. While every effort is made to ensure that drug names and other quantities are presented accurately, readers are advised that new methods and techniques involving drug usage, described within this Journal, should only be followed in conjunction with the drug manufacturer’s own published literature.
