Editor's column
1059 61624/26 and You!
J A Hirsch, J M Millburn, H Woo, M Chen, M M Chen, J Mecca

Commentaries
1061 Point: Dural venous sinus stenting should be considered a first-line treatment option for select patients with idiopathic intracranial hypertension
M R Levitz
1063 Counterpoint: stenting for idiopathic intracranial hypertension should be trialed
C P Deredey, M Wall

Ischemic stroke
1065 Recent developments in pre-hospital and in-hospital triage for endovascular stroke treatment

1072 Technical and clinical outcomes in concurrent multivessel occlusions treated with mechanical thrombectomy: insights from the STAR collaboration

1078 Effect of prolonged microcirculation time after thrombectomy on the outcome of acute stroke
Y J Ye, B Shi, Q Yuan, K Wu, J Fang, H Wang, Z Mao, Y Sun, X Huang, Z Zhou

Hemorrhagic stroke
1084 Surpass Intracranial Aneurysm Embolization System Pivotal Trial to Treat Large or Giant Wide-Neck Aneurysms – SCENT: 3-year outcomes

1090 Parent artery occlusion after pipeline embolization device implantation of intracranial sacular and fusiform aneurysms
M Han, X Tong, Z Wang, A Lu

New devices and techniques
1111 LIQUID - Treatment of high-grade dural arteriovenous fistulas with Squid liquid embolic agent: a prospective, observational multicenter study

1117 Catheter design primer for neurointerventionalists
C Bilgen, J Hutar, J Li, O Castaño, M Ribo, D F Kallmes

1122 Robotic-guided direct transcranial embolization of an indirect carotid cavernous fistula
P J Karas, J E Lee, T S Frank, F T Morden, H Skalton, P Kan

Neuroimaging
1124 Natural history of spontaneous intracranial hypertension: a clinical and imaging study
J Williams, W Brojek, K Janssen-Gregory

1095 Tailored antiplatelet therapy in stent assisted coiling for unruptured aneurysms: a nationwide registry study

1105 Decrease in cortical vein opacification predicts outcome after aneurysmal subarachnoid hemorrhage
W S Didd, O Dayton, B Lucke-Wold, C Reitano, Z Sorentino, K M Busl
1129 Breaking with a dogma: persisting diffusion restrictions (pDWI) in follow-up after endovascular treatment for stroke
M R Hernandez Petzsche, T Boeckh-Behrens, K Berntopf, S Henze, C Maegerlein, D Sepp, C Zimmer, S Wunderlich, B Ikenberg, M T Berndt

Clinical neurology
1136 An explainable machine learning model for predicting the outcome of ischemic stroke after mechanical thrombectomy
Z Yao, C Mao, Z Ke, Y Xu

1142 Impact of high-sensitivity troponin elevation and dynamic changes on 90-day mortality in patients with acute ischemic stroke after mechanical thrombectomy: results from an observational cohort
F Chen, X Bai, X Wang, L Zhang, F Wang, L Huang, J Deng, Z Geng

Basic science
1148 Preclinical model of anterior circulation intracranial stenting
V Anagnostakou, R M King, J Gutierrez, J D Black, J Lee, R Virmani, A S Puri, A H Siddiqui, M J Gounis

Standards
1155 Antiplatelets and antithrombotics in neurointerventional procedures: Guideline update
C M Schirmer, K R Bulsara, F Al-Mufti, N Haranhalli, L Thibault, S W Hetts, SNIS Standards and Guidelines Committee

Technical video
1164 Transradial flow diversion with an aberrant right subclavian artery
R Bram, G Awal

Letters
1165 Use of the Simmons guiding sheath via left transradial access as a feasible strategy for neurointerventions in patients with an aberrant right subclavian artery
Y Hanaoka, Y Inomata, J Koyama, T Nakamura, S Kitamura, D Yamazaki, T Horiuchi

1166 Response to: Correspondence on “Transradial flow diversion with an aberrant right subclavian artery” by Hanaoka Y et al
R Bram, G Awal
