Editor’s column
207 Opportunity and challenge in minting neurointerventional leaders
T M Leslie-Mazwi

Ischemic stroke
209 Stroke thrombectomy volume, rather than stroke center accreditation status of hospitals, is associated with mortality and discharge disposition

214 Clinical outcome of patients with mild pre-stroke morbidity following endovascular treatment: a HERMES substudy

221 Risk factors of unexplained early neurological deterioration after treatment for ischemic stroke due to large vessel occlusion: a post hoc analysis of the HERMES study

227 Perceived acceptable uncertainty regarding comparability of endovascular treatment alone versus intravenous thrombolysis plus endovascular treatment: a HERMES substudy

233 Endovascular thrombectomy beyond 24 hours from ischemic stroke onset: a propensity score matched cohort study
P S Dhillon, W Butt, A Podlasek, E Easteal, N McConachie, R Lenthall, S Nair, I Malik, M A James, R A Dincen, T J England

238 Latenness of earlier stroke affects endovascular thrombectomy outcomes
D V Bagac, B S Gershon, D Chada, N Siddiqui, S Majidi, J T Ffij, R De Leyt

Unplanned readmission after carotid stenting versus endarterectomy: analysis of the United States Nationwide Readmissions Database
P Nazari, P Colburn, S A Ansari, D R Cantrell, M B Potts, B S Jahromi

Hemorraghic stroke
248 Prospective study on embolization of intracranial aneurysms with the pipeline device (PREMIER study): 3-year results with the application of a flow diverter specific occlusion classification

Higher Hospital Frailty Risk Score is associated with increased complications and healthcare resource utilization after endovascular treatment of ruptured intracranial aneurysms
A B Koo, A A Eskinadany, D Rentzos, M Sarkozy, J Sherman, B C Reeves, J Havlik, J Antonio, N Sujianazan, R Heber, A Malhotra, C Matouk

New devices and procedures
262 Detection of cerebral aneurysms using artificial intelligence: a systematic review and meta-analysis
M Din, S Agarwal, M Grzeda, D A Wood, M Modat, T C Booth

272 Percutaneous sclerotherapy of microcystic lymphatic malformations: the use of an innovative gravity-dependent technique
A Berenstein, M J Bazal, M Sorscher, P Blo, R De Leaty, T Shigematsu, M Waner, J T Ffij

Contents
Neuroimaging

276 ‘Balloon pressure technique’ for endovascular treatment of spinal cord arteriovenous fistulas: preliminary results in 10 cases
F Clarençon, D Parat, E Shotar, K Premat, S Lenck, M Ditr, E Maillart, A-L Boch, N Soueur

283 The butterfly effect: improving brain cone-beam CT image artifacts for stroke assessment using a novel dual-axis trajectory
N M Cancelliere, E Hummel, F van Nijmatten, P van de Haar, P Wüthagen, M van Vlimmeren, B Hallacoglu, R Agid, P Nicholson, V Mendes Pereira

288 Baseline vessel wall magnetic resonance imaging characteristics associated with in-stent restenosis for intracranial atherosclerotic stenosis
B Tian, C Zhu, X Tian, Q Kang, C Shao, M Mossa-Basha, J Lu, D A Saloner

292 Evaluation of Sine Spin flat detector CT imaging compared with multidetector CT
V D Petroulia, J Kaesmacher, E Pechowski, T Drobeky, S M Pilgram-Pastor, J Crella, F Wagner, P Mordasini

Basic science

298 Aneurysm healing after endovascular treatment in the Helsinki sidewall aneurysm model: a systematic review
L Rinaldo, J L Arturo Larco, R Kadirvel, D F Kallmes

Technical video

303 Intra-arterial chemotherapy for retinoblastoma
J A Carnevale, J Goldberg, G Kacharian, M Rivera, A Gionini Larsen, A Garten, A Ramos, J H Francis, D H Abramson, Y Pierre Cobin

Letters

305 Correspondence on “Higher hospital frailty risk score is associated with increased complications and healthcare resource utilization after endovascular treatment of ruptured intracranial aneurysms” by Koo et al
E Estes, K Rumalla, M H Schmidt, C Bowers

307 Response to letter to the Editor on ‘Utility of the Hospital Frailty Risk Score in patients undergoing endovascular treatment for ruptured aneurysms’
A B Kuo, A A Elsamadicy, D Renesto, C Matouk

308 Correspondence on “Susceptibility weighted imaging for ruptured basilar artery perforator aneurysms in the setting of angiographically negative subarachnoid hemorrhage” by Zhu et al
M Boukobza, J-P Laissy

Electronic pages

e1 Correspondence on “Unplanned readmission after carotid stenting versus endarterectomy: analysis of the United States Nationwide Readmissions Database”
by Nazari et al
A Y Azzam, S Ghzy, K M Kallmes, A A Dmytrtv, R Kadirvel, D F Kallmes

e2 Republished: Resolution of an enlarging subdural haematoma after contralateral middle meningeal artery embolisation
C Rutledge, J F Baranoski, J S Catapano, A P Jadhav, F C Albuquerque, A F Ducruet

e3 Stents for progressively symptomatic paediatric intracranial arterial dissection
C R G Jay, A N Duncan, S K Elsika, M T Bender

e4 Republished: Multiplug flow control technique as a novel transarterial curative approach for the endovascular treatment of cerebrovascular malformations
H S Cekirge, I Saati

e5 Republished: Delayed aneurysm rupture following treatment with the WEB embolization device
B A Gross, M J Lang

e6 Republished: Aspiration catheter failure leading to carotid-cavernous fistula during stroke thrombectomy
M Aguir, J Klee-Sampson, G Brzezicki, S Bashir, J Matteo, T Meyer, D Siragusa

e7 Republished: Robotic assistant spinal angiography: a case report and technical considerations
S Tateshima, H Saver, G P Colby, D Enzmann, G Duckwiler
