Editor’s column
731 Was it worth it?
M R Levit

Commentary
733 Time-to-treatment with endovascular thrombectomy in patients with large core ischemic stroke: the ‘late window paradox’
F Ał-Mufti, M Efîl, H S Chaia, S Chozy, A Elmaskot, A P Jadhao, C D Gandhi, S Mayer

Hemorrhagic stroke
735 National reduction in cerebral arteriovenous malformation treatment correlated with increased rupture incidence
F Luther, D J McCarty, J Burke, V Govindarajan, V M Lu, M Silva, M Lang, B A Gross, R M Sartore

Neuroimaging
747 3D aneurysm wall enhancement is associated with symptomatic presentation
A Raghuwanshi, S Sanchez, L Weidt, S Cockeas, D Ishi, C Osorno, G Bathla, T R Koscik, J Turner, D Hasan, E A Samaniego

749 Non-contrast enhanced silent MR angiography to evaluate hemodynamics and morphology of unruptured intracranial aneurysms: a comparative computational fluid dynamics study
Y Lu, X Long, R Zou, Q Chen, W Li, X Zhou, S Tan, X Huang, C Dong, F Gong, J Xiang, Y Weng

760 Improving visualization of three-dimensional aneurysm features via segmentation with upsampled resolution and gradient enhancement (SURGE)
D M MacDonald, N M Canciere, A Ristic, V M Pereira, D A Steinman

Vascular neurology
801 Prediction of 90 day home time among patients with low baseline ASPECTS undergoing endovascular thrombectomy: results from Alberta’s Provincial Stroke Registry (QuICR)
N Singh, J K Holodinsky, N Kharrazi, R V McDonough, F Bala, M Hare, J Shah, A M Demchuk, M D Hill, M A Almekhlafi

New devices and techniques
766 Artificial intelligence aneurysm measurement tool finds growth in all aneurysms that ruptured during conservative management
D H Sahlen, D Gibson, J A Scott, A DeNardo, K Amstutz, T Payner, D Rosenbaum-Halevi, C Kulwin

Clinical experience with the Bendit steerable microcatheter: a new paradigm for endovascular treatment
M Köller-Oberpfalzer, R Chapot, D Orion, J D Barr, O Cabini, A Berenstein

Endovascular treatment of intracranial aneurysms using the Derivo Embolization Device: a multicenter experience
G Chagas Luorenco, F Danas, T Silva e Carvalho, R U R Fimano, M Quagüé Filippera Filho, R T Tosello, C J Leão, R L Peike, R Zenobi Danowi

A novel self-expanding shape memory polymer coil for intracranial aneurysm embolization: 1 year follow-up in Chile
D Echevería, R Rivera, P Gisaman, J G Sordo, M Emerson, L Baldila

Intraoperative angiography via popliteal artery access for spinal neurovascular lesions: an institutional experience and systematic review

Intraoperative angiography during neurosurgical procedures on patients in prone, three-quarters prone, and park-bench positions: tertiary single-center experience with systematic review and meta-analysis
### Clinical neurology

808  
Lock-in syndrome responding to endovascular treatment  
J Song, J Huang, L Li, J Yang, C Yue, S Liu, W Kong, X Luo, J Liao, J Du, B Song, J Liu, X Tan, X Tan, F Li, W Zi

830  
Correspondence on: ‘Artificial intelligence aneurysm measurement tool finds growth in all aneurysms that ruptured during conservative management’ by Sahlein et al  
A M Spiotta, B T Jankowitz, J J Heti, G Grant, C E Baccin, E A Samaniego, P Singh

---

### Tumor embolization

814  
Preoperative tumor embolization prolongs time to recurrence of meningiomas: a retrospective propensity-matched analysis  

831  
Commentary in response to ‘Preoperative tumor embolization prolongs time to recurrence of meningiomas: a retrospective propensity-matched analysis’  
S Gupta, O Arnaout

---

### Spine

821  
Clinical features and outcomes of perimedullary arteriovenous fistulas: comparison between micro- and macro-type lesions  
J Yu, S Zhang, L Bian, C He, M Ye, G Li, P Hu, L Sun, F Ling, H Zhang, T Hong

---

### Technical video

828  
Percutaneous embolization of sinus pericranii  
H Hoffman, G W Koutsouras, J Oh, N Suryadevara, G C Gould

---

### Letters

829  
Correspondence on “National reduction in cerebral arteriovenous malformation treatment correlated with increased rupture incidence” by Luther et al  
F J Jareczek, V Padmanaban, D R Hallan, D A Wilkinson

830  
Correspondence on: ‘Artificial intelligence aneurysm measurement tool finds growth in all aneurysms that ruptured during conservative management’ by Sahlein et al  
A M Spiotta, B T Jankowitz, J J Heti, G Grant, C E Baccin, E A Samaniego, P Singh

831  
Commentary in response to ‘Preoperative tumor embolization prolongs time to recurrence of meningiomas: a retrospective propensity-matched analysis’  
S Gupta, O Arnaout
